RE: Administrative Policy Requiring Facial Coverings and Social Distancing on Village Property

*Village Manager*  
**Steven C. Williamson**

On May 3, 2021, Governor Ron DeSantis issued an executive order that suspended certain local emergency orders based on the COVID-19 emergency, including Miami-Dade County's COVID-related emergency order on facial coverings and social distancing guidelines. On May 13, 2021, the CDC updated its guidance providing that fully vaccinated people no longer need to wear a facial covering or physically distance in any setting, except where required by federal, state, local, tribal, or territorial laws, rules, and regulations, including local business and workplace guidance.

Based upon the Governor's executive order and the updated CDC guidelines, I have instituted a general administrative policy strongly encouraging the use of facial coverings and social distancing consistent with the CDC Guidelines while on Village property until further notice.

Notwithstanding this general administrative policy, the Village will continue to require certain measures to preserve the health, safety and welfare of the Village Council, Village employees and the public we serve at specific Village facilities and events. These measures will be clearly communicated to the public and posted at the facilities and events requiring specific safety procedures. Upon request, the Village will work with individuals unwilling or unable to comply with these health and safety measures to ensure access to essential government services.

The health and safety of our community remains a top priority, and we will continue to do our best to maintain a healthy work environment and provide quality municipal services.
